Projects

Pharmacy Management System

Developed a Pharmacy Management System to streamline inventory management, prescription tracking, and customer information for a local pharmacy.

Key benefits: Significantly improved operational efficiency, reduced prescription processing times. Reduced paper work by using software.

Crop Yield Prediction using Machine Learning and Internet of things

The project aims to predict yield of the crops, crop recommendation, fertilizer prediction and price prediction using the sensors and machine learning algorithms.

Key benefits: Enabled data-driven decision-making for farmers, resulting in cost savings and enhanced sustainability. Empowered farmers with insights into market price trends, enhancing profitability.

Internship

Intrenship Title: Front-end Developer

Company Name: Compsoft Technologies
